Government Proceedings No. R. 4115-24—R. M. 712-04-21, dated the 25th October 1906, issuing instructions with regard to the preparation, compilation and publication of the fortnightly statements of wholesale and retail prices of food grains.

2. Letter No. 4443, dated the 2nd August 1912, from the First Assistant to the Hon'ble the Resident in Mysore, stating that with regard to the statement of retail prices prescribed as Form 'D' in para 5 of the above order, information may, in future, be furnished only in respect of the Bangalore and Mysore Districts and that the supply of information in respect of other districts may be discontinued.

No. R. 814-22—AGRI. 16-12-7, DATED BANGALORE, 9TH AUGUST 1912.

ORDER THEREON.—Government are pleased to direct that Statement D showing the retail prices of the 13 articles specified in para 5 of the Government Order read above, be confined only to the Bangalore and Mysore Districts and manuscript and printed copies thereof continued to be submitted as directed therein. The statement need not be published in the Gazette as it is a mere abstract of return C which will continue to be published as heretofore.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (General Finance), dated 20th August 1912.

No. Fl. 878-923—G. F. 491-11-2, dated Bangalore, 20th August 1912.

Order.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of ¼ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

(1) Letter No. 85-6, dated the 4th July 1912, from the Inspector-General of Police in Mysore, submitting a report on the working of the Kolar Gold Fields Detective Establishment during the last three years, and requesting sanction to the augmentation of the staff by the addition of one Head Constable and six constables at an annual cost of Rs. 2,000 and to its retention for a period of three years from the 20th July 1912.

I have the honor to State that the period for which the retention of the Detective Police Establishment on the Kolar Gold Fields was sanctioned by Government in their Proceedings No. J. 89-91—Pol. 206-08-2, dated 6th July 1909, expires on the 20th July 1912.

2. While recommending the retention of this very useful staff for a further period of three years, I beg to append for the information of Government a statement showing the work turned out by them during the preceding triennium.

3. There was no change in the personnel of the staff, except that a Head Constable was appointed in September 1911, under the general sanction conveyed in Government Proceedings No. 170-72—J. F. 42 of 98-99, dated 20th July 1903, for employment in the Robertsonpet Town which has been steadily growing in importance. Otherwise the strength of the staff was the same as in the previous period and consisted of a Chief Inspector and a second Inspector with three Head constables and nine constables and informants. The total cost for this triennium (including "Rewards for good Service" and "Secret Service," etc.) amounted to Rs. 34,698 against a grant of Rs. 39,000 by the Kolar Gold Fields Mining Board, as detailed below:—

Details	1909-10	1910-11	1911-12 from July 1911 to May 1912	Total
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p

Total ...	11,862 3 4	11,879 7 5	10,956 8 5	34,698 3 2

4. During this triennium the special staff detected and handled 59 cases against 72 during the previous period, with the result that 43 cases ended in conviction and 8 in acquittal or discharge, 5 cases were withdrawn and 3 were pending with the Police and before the Courts at the close of the period. In connection with the above cases, 89 accused persons were prosecuted, of whom 63 were convicted and 17 acquitted or discharged. Prosecutions against 6 were withdrawn, 1 person absconded and 2 were pending trial. Among the convicted persons, 34 were reputed receivers of stolen gold and 6 were goldsmiths, who carried on their profession in the mining area without licenses. In addition to this, this special establishment rendered much valuable service to the regular Police in the detection of some of their most important cases. They also collected and furnished to the Mining authorities much useful information of a confidential nature both in the ordinary course and also when specially asked for.

5. There has been a decrease in the number of cases of gold thefts, as the natural result of vigilant and energetic measures adopted by the Detective Staff in ridding the Fields of most of the well-known receivers, who were prosecuted to conviction during the past years. The work of constant and careful watching of a large floating criminal population of all classes from various parts of the country, who are attracted to this centre of industrial activity, has been steadily increasing, taxing the energies of this Force to the utmost extent. The getting up of history sheets of undesirables and performance of duties imposed upon them by the recent introduction of the Mines Regulation have also considerably increased the volume of work.

Judicial and Legislative (Police), dated 14th August 1912.

6. In these circumstances this special establishment has to be augmented, for adequately exercising a satisfactory watch over the suspects and undesirables as also on the subordinate staff of millmen and assistants in assay offices, etc., and the petty receivers. The Deputy Commissioner of the Kolar District reports that the task of continuously watching these men will not be possible by the existing staff, which has been shown to be overworked. He strongly urges the necessity to add to the existing staff 1 Head Constable and 6 constables and informants to be employed in the various camps and one Head Constable for the flourishing town of Robertsonpet, at an extra cost of Rs. 2,000 per annum. I concur with the Deputy Commissioner and recommend that the extra establishment be sanctioned. The proposition statement in the usual form is herewith submitted.

7. On receipt of orders sanctioning the retention of the Detective Establishment for another three years, with the augmentation asked for, I shall formally address the Mining authorities for the excess grant of Rs. 2,000 which, I understand, they will not be unwilling to contribute more especially in view of the greater efficiency anticipated as well of the necessity to have to provide for pensionary contributions, etc., of the permanent officials lent to this Department.

8. I have therefore to request that you may be so good as to obtain early orders of Government in this important matter.

(2) This office letter No. J. 175—Pol. 1-12-2, dated the 17th July 1912, to the Inspector-General of Police in Mysore, stating that so far as Government are concerned, there is no objection to the continuance of the establishment for another three years and thereafter till one year's notice is given on either side and to the proposed addition to the establishment provided the Mining Companies are prepared to defray the cost.

(3) Letter No. 378-29, dated the 23rd July 1912, from the Inspector-General of Police in Mysore, forwarding copy of a letter dated the 20th idem from Messrs. John Taylor & Sons' Committee, to the Deputy Commissioner, Kolar, stating that Messrs. John Taylor & Sons are prepared to pay, on behalf of the several Mining Companies on the Field, an additional contribution of Rs. 2,000 per annum, thus raising their yearly contribution from Rs. 13,000 to Rs. 15,000 provided that any payment which may become necessary on account of contribution towards pension and leave allowances is met out of this sum.

No. J. 479-81—Police 1-12-4, dated Bangalore, 14th August 1912.

Order thereon.—Government are pleased to direct that the establishment be continued for a period of three years from the 20th July 1912, and thereafter till one year's notice is given on either side, the Mining Companies paying an annual contribution of Rs. 15,000 towards its maintenance. As the strength of the establishment to be maintained is left to the discretion of the Inspector-General of Police under Government Proceedings No. 170-72—J. 42-98-99, dated 20th July 1903, no fresh sanction is necessary for the additional strength asked for. The Inspector-General of Police should, however, take particular care that the cost of the establishment, including the contribution for pension and leave allowances of Police officers and men lent to the establishment, does not under any circumstances, exceed Rs. 15,000. The steps taken in this behalf should be reported in due course.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Government Proceedings No. J. 969-70—Police 45-11-4, dated the 16th September 1911, sanctioning the establishment of two Jui Juitsu classes at Bangalore and one at Mysore.

2. Letter No. 4789—535, dated the 28th May 1912, from the Inspector-General of Police in Mysore, submitting proposals for the establishment of similar schools in other District Headquarters.

With reference to your letter No. J. 2741—Police 45-11-7, dated 20th March 1912, calling for the submission of detailed proposals regarding the establishment of a Jui Juitsu School at each of the District Headquarters, I have the honor to state as follows :—

2. It is proposed to start six more new schools, exclusive of those in Bangalore and Mysore, and to locate one at each of the District Headquarters, except at Kolar, the school for which district will be located at Kolar Gold Fields. Accordingly the Deputy Commissioners of the Districts have been addressed to submit early estimates for the preliminary arrangements, such as the putting up of sheds and the construction of the necessary platforms. Six sheds and six platforms have thus to be erected, one at each of the different centres, and the probable cost of all these is expected to amount to about Rs. 2,640 at the rate of Rs. 440 for each shed and platform.

3. Soon after the sanction of Government for this proposal is received arrangements will be made to start the schools as early as possible, and officers and constables in each district fit to undergo a course of instruction in Jui Juitsu will be sent to the school in batches of not more than ten, consisting of one Inspector, one Jamadar and eight Dafadars and constables. The term of instruction for every batch is expected to last for six months.

4. There are at present two Inspectors, four Jamadars or Head Constables and six sergeants and constables, all trained in Jui Juitsu under Professor Sano, available to be posted as instructors. Selection from among these will be made according to the requirements of the districts and two instructors will be posted for each district.

5. The officers and men undergoing training will, of course, get the special allowances sanctioned to them in Government Proceedings Nos. J. 969-70—Pol. 45-11-4, and J. 2340-1—Pol. 45-11-6, dated 16th September 1911 and 15th February 1912, respectively.

6. In this connection, I would urge the necessity of granting special allowances to the Instructors also similar to those sanctioned for the pupils for reasons already submitted in this office letter No. 3820—461, dated 26th March 1912.

7. The monthly recurring expenditure in the shape of allowances to be instructed in all the six schools, at the rate of ten officers and men in each school, amounts to about Rs. 186 at the rate of Rs 31 for each district as detailed below:—

For each school.

	Rs.		Rs.
1 Inspector at ...	... 7	per month	7
1 Jamadar at ...	... 5	do	5
3 Dafadars at ...	... 3	do each . .	9
5 Constables at ...	.. 2	do each ...	10
		Total ...	31

8. The students as well as the Instructors have to be supplied with specially made khakhi suits, each of which cost Rs. 4-12-0. Hence the whole cost of khakhi suits to be supplied to both the Instructors and the instructed in all the six schools will come up to Rs. 342. And this expenditure shall recur with every new batch of students, *i.e.*, once in every six months.

9. Further, a sum of Rs. 5 would be required for every school for contingent expenditure to purchase straw for the platforms, etc., besides the stationery, which aggregates to Rs. 30 per month for all the six schools.

10. On further consideration I am of opinion that two schools at Bangalore are unnecessary and that the two may be combined into one with one or two additional Instructors, the classes being held both in the morning and in the evening, separately for the officers and men of the Provincial Special Reserve and Training School, and the District and the City Police as at present.

11. The foregoing proposals are expected to cost an initial expenditure of Rs. 2,640 for erecting sheds and platforms and an annual recurring expenditure of Rs. 3,516 details of which are furnished below. It is not possible to meet even a portion of this expenditure from the budget allotments already sanctioned and a special allotment has therefore to be sanctioned.

Order thereon.—The proposals of the Inspector-General of Police for opening six additional Jui Juitsu classes are sanctioned with the modification that the grant of a separate contingent allotment for the schools is considered unnecessary as any articles of stationery which may be found absolutely necessary may be got out of the contingent allotment of the several District Police Offices.

2. The Inspector-General is authorised to make acting arrangements in place of the Inspectors and Jamadars deputed to the schools, the acting allowances not exceeding Rs. 30 a month for each school.

Correspondence ending with letter No. 269, dated the 18th June 1912, from the Chairman of the Board of Trustees for the Improvement of the City of Mysore, submitting the budget estimates of the Board for the year 1912-13

No. 1500-7—Ml. 330-11-4, DATED BANGALORE, 16TH AUGUST 1912.

ORDER THEREON.—*Opening balance and grant from State Funds.*—In consideration of the surrender of Rs. 1,36,628 proposed by the Board at the close of the year 1911-12, the opening balance and the grant from State Funds have been estimated by the Board at Rs. 658 and Rs. 2,60,243 respectively. But as it has been already ruled in Government Order No. 10164-5—Ml. 331-11-6, dated 29th June 1912, that no portion of the Government contribution need be surrendered and that unspent amounts in any year will go to add to the balance at the credit of the Board, the Government grant for the subsequent year being suitably decreased, the opening balance and the Government grant for the year 1912-13 will be adopted as Rs. 1,37,286 and Rs. 1,23,615 respectively.

2. *Salary of Executive Engineer.*—A provision of Rs. 7,920 has been repeated on account of the salary of the Executive Engineer of the Board. In view of a change in the holder of the office, the provision will be reduced by Rs. 2,000 (*vide* Government Notification P. W. 856—5708, dated 15th July 1912).

3. *Establishments.*—Certain alterations involving an increase of Rs. 120 a year have been inserted in the estimates on account of the revision of the establishment not yet sanctioned by Government. Pending the issue of final orders, the number, rate and designation of the establishments will be shown in accordance with the existing and sanctioned scales, a lump sum provision of Rs. 120 being retained for the proposed revision.

4. *Improvement of Devaraj Market.*—In Government Order No. 21-2—Ml. 193-11-3, dated the 1st July 1912, it has been decided that this work is not of sufficient urgency or special importance to justify its being taken up by the Board and that it should be left to the Municipal Council, if so advised, to carry out the work from Municipal Funds. The provision of Rs. 41,160 made for this work should therefore be utilised for the sewerage of the Fort and the construction of outfall works.

5. *Sewerage of the Fort.*—No provision has been made for this work and the Chairman explains that the Board is alive to the urgency of the work and that so much of the amount as may remain unspent out of the provision made for Devaraj Market will be utilized for this purpose. The project for the improvement of the Devaraj Market having been ordered to be abandoned so far as the Trust Board is concerned a sum of Rs. 15,810 out of the savings accruing therefrom should be utilised for modifying the existing sewers in the Fort. In this connection it behoves the Trust Board to consider whether many houses having been dismantled in the Fort it is not necessary to seal up the house connections of all dismantled buildings. The new Palace is provided with an up-to-date water closet installation and in order that this may work satisfactorily it is necessary to improve the sewerage system in the Fort. This work will be in keeping with the other extensive improvements carried out in the Fort.

6. *Construction of outfall sewer.*—The Board is of opinion that this work may be deferred pending the progress in the laying of pipe lines in the interior of the City and the Chairman explains that a sum of Rs. 1,25,000 is provided for the laying of pipe sewers in No. III Drainage Area, Part II, against a provision of Rs. 75,000 proposed by the Executive Engineer and that it is possible to utilize a portion of this allotment, if necessary, for the outfall sewer. Government, are, however, of opinion that the outfall works should be completed first and they accordingly direct that a sum of Rs. 25,350 out of the savings in the provision

made for the improvement of the Devaraj Market and also a sum of Rs. 50,000 out of the provision proposed for the laying of pipe sewers, or a sum of Rs. 75,350 in all, be utilised for the outfall works during the current year.

7. *Surface and storm water drains.*—The Board apprehends that it may not be possible to begin the laying of pipe sewers in No. IV Drainage Area before the year 1913-14 and has provided a sum of Rs. 2,034 for the construction of surface drains and other works that may have to be urgently carried out in the Lakshmipuram Extension. Provisions of Rs. 500 each for the construction of new surface drains of small lengths, should they be necessary in the course of the execution of the works, have also been included in the expenditure proposed under the following works:—

	Rs.
1 Sanitary improvements of No. II Drainage Area	2,500
2. Do No. III do Part I	3,000
3. Acquisition of insanitary houses in Krishnaraj Mohalla, Part I	2,500

The provisions are retained, but the Chairman is requested to see that expenditure on surface and storm water drains is incurred only upon the Board being satisfied of their necessity after consulting the Chief Engineer.

8. The budget estimates as above revised and sanctioned stand as shown below:—

	Rs.
Opening balance	1,37,286
Receipts	1,62,714
Total	3,00,000
Expenditure	2,98,000
Closing balance	2,000

9. A comprehensive programme of works to be undertaken by the Board having been generally approved of in Proceedings No. 6831-5—Ml. 136-11-7, dated 21st March 1912, Government think that in order to carry out the improvements in a businesslike manner it is absolutely necessary to close the old estimates. All items of work originally included in those estimates but which are still considered necessary to be carried out may be brought on a separate estimate, such estimates being separately submitted for sanction. The Chairman is requested to take prompt and necessary action in the matter.

Para 6 of Government Order No. 10220-1—Ml. 377-06-5, dated the 3rd May 1907, requesting the President of the Municipalities in the Bangalore District and Comptroller to state whether it is not possible to report to Government cases of unauthorized payments from imprest amount, such as those referred to therein, within six months of the date of payment.

2. Correspondence ending with letter No. 2, dated the 6th July 1912, from the President of the Municipalities, Bangalore District.

No. 1570-8—ML. 377-06-9, DATED BANGALORE, 17TH AUGUST 1912.

ORDER THEREON.—The Comptroller states that it is not possible to report to Government cases of unauthorised payments within the aforesaid period as the charges are in the first instance paid from the imprest held by the Municipal Presidents and would not be brought to the notice of his office until actually debited in the accounts; and the Municipal President considers such a course possible only if imprest sheets are submitted for recoupment by the Vice-Presidents at the end of each month.

2. Government observe that this case points to the necessity for the incoming Vice-President to scrutinize carefully the Municipal imprest accounts at the time of taking over charge with a view to find out whether there is any item of charge pending unadjusted for a long time and to report the fact to the President, and accordingly direct that this procedure be strictly followed hereafter.

3. Now that the outside audit department has been formed, the Comptroller is also requested, by way of further check, to issue needful instructions to the auditors for checking the Municipal imprest accounts at the time of auditing the Municipal accounts of any Municipality and including all items remaining unadjusted for a long time in their audit reports.

The Report on the working of the Hospitals and Dispensaries in Mysore for the calendar year 1911, received with the Senior Surgeon's letter No. 284—Stt., dated the 1st May 1912.

No. 1620-9—MED. 211-11-6, DATED BANGALORE, 20TH AUGUST 1912.

ORDER THEREON.—Recorded.

2. Lieutenant-Colonel J. Smyth, M.D., I.M.S., Senior Surgeon, was in administrative charge of the Medical Department till the 20th May 1911, when he reverted to the British Service and was succeeded by Mr. P. S. Achyuta Rao, Officiating Senior Surgeon, after a short interval, during which Mr. T. V. Arumugam Mudaliar officiated in the appointment owing to the absence of Mr. Achyuta Rao on leave.

3. The number of Medical Institutions in the State at the end of 1911 was the same as in the previous year, *viz.*, 149. The total number of patients treated in the State Public Institutions (except the Special Hospitals) and the Local Fund and Private-Aided Dispensaries was 1,162,810 against 1,223,433 in 1910. Of this number, 10,779 were indoor and 1,152,031 outdoor patients against 11,513 and 1,211,920 respectively, in the previous year. Of the total number of patients treated (*viz.*, 1,162,810), 543,280 were men, 247,471 women and 372,059 children against 553,500; 256,552 and 413,381, respectively, in the previous year. Of the 10,779 indoor patients treated, 6,533 were cured, 2,356 relieved, 1,058 discharged otherwise, 756 died and 76 remained under treatment at the close of the year.

4. There was a considerable decrease in the number of cases treated during the year for small-pox, cholera and malarial fevers, the number being 80, 62 and 216,529 against 204, 636 and 220,002 respectively in 1910.

5. Statistics of patients treated during the year in the Jahgirdar's Dispensary at Yelandur were not furnished. The Senior Surgeon having suggested in a separate communication that the loan of a Sub-Assistant Surgeon for the charge of the dispensary at Yelandur be terminated and that the Jahgirdar left to make his own arrangements in the matter of providing medical relief at Yelandur, the question of the control to be exercised by the Government over the administration of medical relief in the Jahgir is engaging their consideration.

6. Principal operations were performed on 35,291 patients, including those that remained at the end of the previous year. Of these, 20,734 were cured, 14,392 were relieved, 30 were discharged otherwise, 87 died and 48 remained under treatment at the close of the year.

Of the 35,246 principal operations performed during the year, excluding those performed on the 45 patients that remained at the close of the previous year, 1,890 were major operations. The number of major operations performed in the Victoria Hospital, Bangalore, was 805 against 828 in the previous year.

7. The total expenditure on account of the State Public, Local Fund and Private-Aided Hospitals and Dispensaries in the State amounted to Rs. 402,355 against Rs. 405,663 in 1910.

8. The Special Pay Wards of the Victoria Hospital continued to be kept open during the year. The number of patients treated in them was 53 against 61 in 1910. Of this number (*viz.*, 53), *44 were gentlemen, † 8 were ladies and one was a child (Indian).

* 9 Europeans, 35 Indians
† 1 European, 7 Indians

The income from and the expenditure on account of, these wards amounted to Rs. 1,239-12-0 and Rs. 566-3-9 (incurred on establishment) respectively.

9. Thirty-one cases were treated with X-rays in the Victoria Hospital, Bangalore, the number of radiographs taken during the year being 124.

10. The total number of patients treated in the State Non-Public Institutions, including the Railway Dispensaries was 51,134 against 57,540 and the number of operations performed in them was 1,454 against 2,442 in 1910.

11. The number of midwives who were at work during the year was 110 against 107 in 1910. They attended to 6,411 cases against 6,076 in 1910.

12. The number of Hindu Vaidyasalas and Unani Dispensaries that administered medical relief during the year was 37 against 34 at the end of December 1910. The total number of patients treated in them (exclusive of those treated in the Vaidyasalas at Seringapatam and Davangere, of which the statistics were not furnished) was 252,745 against 259,944 in 1910. Of the total number treated, 231,127 were cured, 17,952 relieved or discharged otherwise, 390 died and 3,276 continued to remain under treatment at the close of the year. The Deputy Commissioners of Districts and Presidents of all the District Boards are requested to see that the statistics relating to the Vaidyasalas and Unani Dispensaries in their respective districts are furnished to the Senior Surgeon in the form to be prescribed by that officer, so as to enable him to embody the same in his report on the working of the Hospitals and Dispensaries in Mysore.

13. *General.*—The year under review was marked by some changes in the classification and prospects of the Medical officers. The most important of these was the revision of the scale of pay of the Hospital Assistants; the minimum pay of these officers was raised from Rs. 25 to Rs. 30 and their promotion from one class to another was made quinquennial. The designation of "Hospital Assistant" was changed to "Sub-Assistant Surgeon" as in British India. The old grade of Sub-Assistant Surgeons was amalgamated with that of Assistant Surgeons and the designation of "Civil Surgeon" was changed to "Surgeon."

14. To remedy the inconvenience resulting from the shortage of Sub-Assistant Surgeons adverted to in para 42 of the report, the Senior Surgeon was authorised during the year to entertain, subjects to certain conditions, qualified men in other than the lowest class of Sub-Assistant Surgeons, if necessary, so as to induce them to take up service in Mysore.

15. The Government desire to express their appreciation of the high standard of efficiency at which the Department was maintained by Dr. Smyth during his term of office as Senior Surgeon.

Letter No. 1262—B. & R., dated the 21st June 1911, from the Comptroller, forwarding with his remarks Senior Surgeon's letter (in original) No. G. 585, dated the 19th May 1911, together with a proposition statement for the reorganization of the establishment of the Government Eye Infirmary, so as to meet the requirements of the new Minto Ophthalmic Hospital, Bangalore, when it is opened.

2. Correspondence ending with letter No. G. 203, dated the 16th November 1911, from the Senior Surgeon, stating that the establishment asked for on account of the Minto Ophthalmic Hospital, except the European Matron and a Head Lascar, is absolutely necessary.

No. 1986-7—MED. 260-10-8, DATED BANGALORE, 31ST AUGUST 1912.

ORDER THEREON.—Government are pleased to sanction a local allowance of Rs. 100 per mensem to Dr. S. V. Ramaswamiengar, Government Oculist for the charge of the new Minto Ophthalmic Hospital with effect from the date of opening of the Hospital. The allowance will be personal to Dr. Ramaswamiengar; and he will be allowed to continue to occupy rent free the Government quarters in which he is now living.

2. The question of allowance proposed to the Resident Surgeon of the Minto Ophthalmic Hospital will be deferred till quarters for him are got ready.

3. As regards the subordinate establishment for the Hospital, the proposals of the Senior Surgeon regarding the establishment that is immediately required are sanctioned with the following modifications:—

(1) Provision for a Matron and Head Lascar included in the proposition statement will be omitted as agreed to by the Senior Surgeon.

(2) Instead of a steward on Rs. 45 and a clerk (for the Linen Department) on Rs. 20 per mensem only one official on a pay of Rs. 25 to serve as Steward and clerk is sanctioned.

(3) Only one Lascar is sanctioned for the Sanitary Department instead of two as proposed by the Senior Surgeon.

(4) As the *cadre* of the Sub-Assistant Surgeons as sanctioned in Government Order No. 3078—Med. 236-09-2, dated 30th October 1911, already includes two for the Government Eye Infirmary, sanction to an additional Sub-Assistant Surgeon is unnecessary. Both the Sub-Assistant Surgeons will draw a local allowance of Rs. 10 per mensem while attached to the Minto Ophthalmic Hospital.

4. The staff of Medical Officers and Subordinates for the Minto Ophthalmic Hospital as now sanctioned will be as shown in the appended statement.

5. The Senior Surgeon is requested to provide the requisite funds to meet the extra charge entailed by the reorganization during the current year by a reappropriation of the sanctioned grants in the current year's Medical Budget.

The Report on Sanitation in Mysore for the calendar year 1911, received with letter No. 5393, dated the 15th June 1912, from the Sanitary Commissioner.

No. 1540-9—SAN. 141-11-5, DATED BANGALORE, 17TH AUGUST 1912.

ORDER THEREON.—The registered birth-rate in the State rose from 17·22 per mille of population in the previous year to 19·89 per mille, during the year 1911. The number of deaths reported aggregated 1,11,943 or 20·54 per mille of population as against 1,10,005 or 20·19 per mille during 1910. The ratios have been calculated on the basis of the Census figures of 1901. The death-rate for 1911 was higher than the previous five years' average by 1·87. Comparing the mortality in urban and rural areas the death-rate was 39·46 per mille of population in towns against 18·07 in the rural circles. Registration of vital statistics continues to be defective. The Sanitary Commissioner is investigating the matter.

2. *Cholera.*—Fewer people died of cholera, the number being 201 against 1,812 in the preceding year.

3. *Small-pox.*—It was so in the case of small-pox also, the number of deaths being 2,561 or 3,145 less than in the year 1910. The disease prevailed in all the districts, but most severely in the Mysore District which returned 1,665 deaths. Vaccination was declared compulsory in most of the Municipalities in the Mysore District. The suggestion that the system of compulsory vaccination may be extended to rural areas also, will be considered on receipt of the report called for from the Sanitary Commissioner in Government Proceedings No. 9905-15—Med. 163-08-7, dated the 10th April 1909, on the working of the system.

4. *Fevers.*—In the case of fever, however, the total number of deaths recorded was 49,761 (or 9·13 per mille) against 47,313 (8·68 per mille) in 1910. The districts of Shimoga, Hassan and Kadur show the highest rates of mortality from this cause. The Sanitary Commissioner attributes this to the greater prevalence of malaria in these districts. A preliminary report regarding the decimation of population in the Kadur District was received recently from the Sanitary Commissioner and Government await his reports regarding the other districts. In 11 towns of the Chitaldrug District, the death-rate is reported to have exceeded 20 per mille of population. This high death-rate from fevers in a purely maidan district requires early investigation. In regard to the question of free supply of quinine referred to in para 26 of the report, the Sanitary Commissioner's attention is invited to Government Proceedings No. 8313-24—Med. 73-10-17, dated the 10th May 1912, directing that the experiment of supplying quinine free of cost to certain villages highly stricken with malaria be tried for a period of two years.

5. *Plague.*—The mortality from plague numbered 14,617 against 6,338 in the previous year, showing an increase of 8,279. The Sanitary Commissioner states that this increase cannot be satisfactorily accounted for. The district that suffered most was the Bangalore District which returned 3,980 attacks and 3,215 deaths. The number of people inoculated during 1911 was 63,799 as against 44,492 in the previous year. Government are glad to note the good work done in this respect by Mr. Muthuswami Dass, District Medical Officer, Bangalore District, Mr. R. Subba Rao, District Sanitary Officer, Kadur, and Sub-Assistant Surgeon Guru Rao of Tarikere.

6. *Sanitary Improvements.*—The total expenditure incurred by Municipalities on sanitary works such as construction and repair of drains, sinking and repair of wells, construction of latrines, etc., was Rs. 81,132, *i.e.*, Rs. 12,710 more than in 1910. The aggregate cost of Sanitary works carried out by the Public Works Department during the year was Rs. 1,71,472.

7. *Sanitary Board.*—During the year under report 5 schemes estimated at Rs. 15,87,785 were considered and approved of by the Board.

Local Fund and Sanitary (Sanitary), dated 17th August 1912.

8. *General.*—During the latter part of the year 1911, Dr. M. Srinivasa Rao, was entrusted with the duties of the Public Health Institute. The proposal of the Sanitary Commissioner to open a school at Bangalore for the training of Sanitary and Assistant Sanitary Inspectors referred to in para 43 of his report was approved by Government in their Order No. 8135-6—San. 127-10-6, dated the 3rd May 1912. Orders were also passed during the year under review defining and regulating the status of the officers and subordinates of the Public Health Department in relation to the Revenue Officers and Municipal Councils.

The Report on the working of the Vaccination Department in the State and of the Vaccine Institute, Bangalore, for the calendar year 1911, received with letter No. 5392, dated the 15th June 1912, from the Sanitary Commissioner in Mysore.

No. 1590-9—SAN. 138-11-5, DATED BANGALORE, 19TH AUGUST 1912.

ORDER THEREON.—The year under review was marked by decrease of work under all heads. The number of persons vaccinated during the year was 74,687 against 99,211 in the year 1910, showing a considerable decrease of 24,524 and a decrease of 30,828 from the average of the previous three years. The number of successful cases under (1) Primary and Secondary vaccinations and (2) Revaccinations was 66,069 and 1,864 against 82,745 and 4,587, respectively, in the previous year. Compared with the number of vaccinations in the previous year, there is a decrease in all the districts except Kadur. This decrease in the number of persons vaccinated is attributed to (1) Prevalence of plague, (2) incompleteness of staff and (3) shortage of lymph supply. To remedy the inconvenience resulting from the paucity of trained hands, the Sanitary Commissioner has recommended the appointment of two reserve vaccinators for each district. The proposal is under consideration of Government. The Sanitary Commissioner is requested to make necessary arrangements so that an adequate supply of lymph is maintained at all times.

2. The average number of persons vaccinated by each vaccinator fell from 840 in 1910 to 648 during 1911. The number of vaccinations performed by Medical subordinates during the year under report was 7,255 against 9,260 in the previous year, showing a decrease of 2,005. The Sanitary Commissioner reports that Medical subordinates do not go in search of cases from house to house periodically once a week though they are required to do so under departmental circular orders. The Senior Surgeon is requested to take needful action in the matter.

3. It is to be noted that the death-rate from small-pox was less than that of the previous year, the ratio per thousand of population being 0·47 against 1·05 in the year 1910. (Calculated on the figures of the Census of 1901.)

4. The total number of vaccination operations inspected by the Deputy Inspectors of Vaccination and by the Medical subordinates was 71,892 and 48,733, respectively, during 1911 against 86,669 and 55,646 during 1910.

5. The total expenditure on vaccination, excluding the vaccine institute, exceeded that of the previous year by Rs. 1,001. The increase is mainly due to excess expenditure under travelling allowance. The average cost of each successful case of vaccination was Re. 0-5-10·83 against Re. 0-4-3·85 in the previous year.

6. During the year under report vaccination was declared compulsory in the Municipalities of Kolar, Mulbagal, Malur, Srinivaspur and Bowringpet. The Sanitary Commissioner states that in some cases it took a considerably long time to frame bye-laws necessary for the enforcement of the Regulations. The Presidents of the Municipal and District Boards are requested to take early steps for the efficient working of the system.

7. Government note with satisfaction that the Kurnool system of vaccination introduced in 1907 has been working well. The Deputy Commissioners report that the Revenue Officers generally co-operate with the Sanitary authorities in regard to vaccination work. Government have ordered in Proceedings No. 9000-9—San. 176-08, dated 24th June 1912, the grant of certificates each year, to one or two patels in each taluk who evince interest in the work of vaccination by helping the vaccinators in their villages, to serve as an incentive to others to exert themselves in the matter of securing a large number of people for vaccination.

8. The total expenditure on the vaccine institute was Rs. 9,471-5-8 as against Rs. 8,101-4-8 in the preceding year. The increase of about a thousand rupees is

Local Fund and Sanitary (Sanitary), dated 19th August 1912.

stated to be due to a larger number of calves purchased at a higher rate than in the year 1910. The income during the year under review shows a slight increase of Rs. 81-1-8. Vaccine sufficient for 175,416 cases was manufactured in the Vaccine Institute during the year 1911 against 203,569 cases in the previous year, the cost of manufacture being 5·90 pies for each unit of vaccine as against 4·03 pies in 1910. The supply of vaccine made within the State was sufficient for 85,877 cases and that for stations outside the State was for 58,544 cases. Great care is bestowed upon the preparation of lymph by the responsible officers in the Vaccine Institute and the Bacteriological Laboratory.

General.—On the whole the work turned out by the Department during the year under review has not been quite satisfactory. The Senior Surgeon and Sanitary Commissioner is requested to stimulate his subordinate officers to put forth their best efforts to popularise vaccination and show better results in future.

4. I am to add that the Committee are strongly of opinion that if the Resolutions meet with the approval of Government and Government are pleased to direct action to be taken on the lines indicated the educational development of the State would receive a very great impetus, that the education of boys and girls would be placed on a progressive basis and that in comparison with provinces in British India and equally prominent Native States like Baroda and Travancore, Mysore would soon occupy a higher rank than it does at present.

No. 1633-4—Edn. 37-12-2, dated Bangalore, 20th August 1912.

Order thereon.—Government generally approve of the proposals of the Education Committee of the Economic Conference for the improvement of education in the State.

2. A special grant of two lakhs of rupees has been provided in the current year's Education State Fund budget for the expansion of primary education in the State, of which one lakh is for opening new schools and improving existing ones, and one lakh for school buildings. In addition, a provision of Rs. 5,000 for new schools and Rs. 50,000 for buildings have been included in the Village School Fund budget for the current year.

3. The proposals for employing 'trained' officers as Inspecting Officers and 'trained' teachers as Headmasters of Elementary Schools have the full concurrence of Government. The Inspector-General of Education is requested to give increasing effect to these proposals as it becomes practicable and to take adequate steps to secure a sufficient number of trained teachers. The present Inspecting Officers of Schools may, as far as possible, also be deputed to Training Colleges to acquaint themselves with the latest methods of primary education.

4. There are at present three Government Normal Schools for boys and one for girls in the State. The Education Committee suggests that these schools may be improved and additional Normal Schools opened with a view to increase the supply of trained teachers to schools. The opening of an English training class in the Mysore Normal School has been sanctioned from the current year. Further improvements on the lines suggested by the Committee have to be made gradually, and the Inspector-General will consider and submit proposals for the purpose.

5. The measures suggested for the improvement of female education are (1) encouragement of Home Education Classes by grants-in-aid, (2) appointment of an Inspectress for all Middle Schools for girls and Home Education Classes, and (3) the appointment of women teachers in Girls' Schools. Provision is being made in the budgets for replacing men teachers in Girls' Schools by women teachers.

Local Fund and Sanitary (Education), dated 20th August 1912.

Government trust that in the course of a few years it will be possible to staff the important Girls' Schools wholly with women teachers. The question of appointing an Inspectress for Girls' Schools is engaging the attention of Government and that of giving grants to Home Education Classes which is less urgent will be considered separately.

6. The Inspector-General's attention is invited to the suggestions of the Education Committee for the improvement of education among the backward classes and he is requested to submit his proposals for the purpose of carrying out these recommendations as far as practicable.

7. The question of establishing a local University as suggested by the Conference will be considered when funds and facilities become available. The Hostels of the two Colleges and the libraries attached to them have in some respects been recently improved. The Inspector-General is requested to State what further improvements are required. The opening of Honours Course Classes in the Colleges will be considered in due course when there is larger demand for such higher courses.

8. The proposals for the issue of diplomas in the two Colleges of the State are generally approved. The Inspector-General of Education is requested to suggest in consultation with the Principals of the two Colleges the names of persons who may form a Board and to submit a set of rules for the conduct of this work.

9. Government are alive to the need for showing special encouragement to persons of backward classes seeking employment in the Government service.

10. The thanks of Government are due to the Economic Conference and to the Education Committee for having worked out a scheme for the general improvement of education in the State.

(i) The following letter No. 3348, dated the 11th June 1912, from the First Assistant to the Hon'ble the Resident in Mysore :—

I am directed to state that the Government of India have recently had under consideration proposals for accelerating the disposal of business, and relieving Political Officers of work of a routine nature by empowering Accounts Officers to correspond direct with a responsible officer of the State concerned in routine matters relating to officers who are in Foreign Service under a Native State. It has been suggested that accounts officers might be empowered to adopt this procedure in all communications relating to the following subjects :—

(1) Inquiries regarding particulars of service.

(2) Communication of the rates of contribution to be paid by the foreign employer.

(3) Demands for arrears of contribution with penal interest.

(4) Information and reports regarding leave and leave allowances.

(5) Information regarding last pay certificates and charge reports.

(6) Demands for the share of leave allowance payable by the foreign employer.

(7) Arrangements for the payment of the British share of leave allowance when the allowance is paid in full by the foreign employer.

2. The Resident considers that the procedure proposed can, with advantage, be introduced so far as the Mysore State is concerned, and if the Durbar agree in this view, I am to request that he may be furnished with a list of the officials in Mysore with whom the British Accounts Officers concerned may in future correspond on such matters, and that he may from time to time be kept informed of changes in the list.

(ii) Correspondence ending with letter No. 4152, dated the 20th July 1912, from the same Officer, stating that the procedure proposed in the abovementioned letter may be adopted in the Mysore State and that the British Accounts Officers concerned may be addressed direct by the Comptroller to the Government of Mysore.
